Excursions

On last Friday there was a conference in school where we presented adverts of our excursions to Perm Krai. My topic was „Perm Museum of Contemporary Art.“ In my opinion people became more interested in modern art and our museum after my presentation.

My classmates coped with the task very well too. The most exciting presentation for me was about Circus. Yana's advert was so unusual, that now I definitely want to go there!

It was a great experience.
Stay tuned for more news!

Наши Экскурсии.

В прошлую пятницу у нас в школе проходила конференция, на которой мы выступали со своими экскурсиями.

Я выбрала экскурсию по Хохловке, потому что это действительно интересное место, которое стоит посетить, ведь там рассказывается о истории нашего Пермского края.

Мы первый раз делаем наши проекты в таком формате, но все ~~хорошо~~ справились с задачей. Хотя многие и волновались, но все равно выступили отлично.

8:10 am

My excursion was about Ust Kachka - resort in Perm region. I tried to explain everyone, that it is so great place for the relaxing. I jumped at a chance to discover why Ust Kachka ^{is} one of the best places for the rest in Russia. In my opinion, I did an attractive presentation to show how beautiful there. And I am sure, that everyone wants now to visit this beautiful piece of nature. What is more, I think that our presentations should be more interactive. All in all, now we will reinforce our skills and use our experience.

8:06 AM

Я сделал экскурсию о культуре, достопримечательностях и популярных местах. Мне очень понравились экскурсии Али Бактиковой про Пермский музей современного искусства, Яны Халкиной про Гулаг и Вовы Коргина про музей Перм. авиа дружин. Детальные экскурсии мне понравились меньше, так как они были не совсем экскурсиями, а скорее доклады и несоответствовали паттернам критериями.

New Talants Are Found

Do you find yourself thinking about how a new generation is irresponsible and less talented? Read on because this page may change your opinion!

An unforgettable conference among 5th and 9th forms was held in school №50 and continued from 20th to 23rd of March. Think of this question: 'Who is better: Batman or Spiderman?' Well, you could find an answer in one of the pupil's speech. There were a lot of interesting topics and excursions.

Another exciting point was judging. I was assessing students, so I had to look at the conference from a different view. I was surprised by skills of kids! If you are looking for a partner to make a research, you can ask pupils of school №50, because they can make it much better and creative.

All in all, this conference was amazing and it should be held next year. And now there is a lot of time to improve skills.

Good luck.
